Mediterranean style defines the character of this impressive house located in Faro Escondido beach project, just sixty minutes away from the capital city. The Pacific ocean view guarantees an unforgettable stay, tinged with a unique experience, full of luxury and exclusivity. Into a building full of sensory experiences. The front door is another sovereign piece and it stands behind a long, vaulted ceiling, with the main function of protecting guests from the sun (or rain). Once inside, the grandeur is more than evident, mainly due to the stairs leading to the private area, located on the second level. At the lobby, the dual height is overwhelming and it takes its part in a nice sense of grandeur, along with the colorful stained glass on the wall, located on both sides of the stairs and work of a very special Artist.
