This beautiful farm is located in Mata de Plátano in a quiet place that transmits peace and serenity, with a spectacular view of the city, measures 12.500 m2, is a property located in a project of chalet type houses where its main feature is nature, has within the property two rivers of drinking water, has electricity and water service. Its location is very strategic because although it is within nature it is close to supermarkets and convenience restaurants. It is a property with a land use density of 11 which allows to build three houses or three double-height chalets and a bed and breakfast restaurant to create a tourism development or make a beautiful country house to enjoy with the family. The farm's environment is very nice because it is full of nature and tranquility. I invite you to get to know this property.
