Balance is one of the most important aspects of life, and Tamarindo 360 provides the ideal balance between luxurious living and eco-friendliness through the use of intelligent led lighting, solar panels, cross ventilation, inverter air conditioning units, and recycling bins. The lavish common facilities feature an infinity pool, lounge areas, a fitness facility, a BBQ, a bar, a yoga deck, a dog park, and a coworking area. This lovely apartment complex is situated in Tamarindo, a well-known beach town on the northern Pacific coast of Guanacaste, where one can find good restaurants, boutiques, supermarkets, fitness centers, and everything else they may need within a minute's drive. A three-bedroom, three-and-a-half-bathroom condo with unrivaled ocean views in Tamarindo is the stuff of many people's dreams, but it can be yours for this unbelievable bargain. This apartment on the second story gives some of the nicest views whether inside the home or on the balcony. The living room is located in the same shared space as the kitchen and dining area; if one opens the wide sliding glass doors, a pleasant wind will enter the house, along with a breathtaking view of the Costa Rican treetops and the ocean. The Master bedroom will feature a spacious walk-in closet, a bathroom with double vanity sinks, and access to a terrace with breathtaking views. Comparable to the Master bedroom, the

secondary room will also have direct access to the terrace, as well as its own closet and bathroom. The third room will be identical to the second, but will lack access to the terrace. The construction is anticipated to commence in January 2023 and complete in June 2024. Due to its pricing and position, Tamarindo 360 is not only a wonderful investment, but it may also be an outstanding source of income due to its exquisite amenities and prominent location.
