, Tamarindo, Guanacaste

One can only imagine waking up in paradise and seeing the beautiful blue northern Pacific Ocean of Guanacaste as the first thing out the window, especially if it is in a town like Tamarindo, so famous, so beautiful and full of activities to enjoy, breathtaking white sand beach with very calm waves, amazing restaurants all around, and many souvenir shops, this is truly the stuff of dreams, and Tamarindo 360 can make this dream a reality! This four-bedroom, four-and-a-half-bathroom penthouse on the third floor of Tamarindo 360 has to be one of the most incredible opportunities available. Upon entering this apartment, one will see the beautiful, luxurious couches and dining tables that make up the living room. Moving on to the bedrooms, the Master bedroom will have amazing views from the bed and the balcony, which is accessible through the wide sliding doors opposite the bed, as well as a sizable walk-in closet and a bathroom with a double vanity sink. Additionally, the secondary room will feature a balcony, closet, and bathroom. Additionally, the third room will contain a closet and a bathroom with a double vanity sink. The final room will be designated as the guest room, containing two single beds, a walk-in closet, and a bathroom. The main portion of the house, where the living room is, will have a stairway leading to the roof, which will have the best ocean view and a relaxing space,

where friends and family can watch the sunset while lounging in the jacuzzi or in the jacuzzi. In a country like Costa Rica, where luxury and eco-friendliness must go hand-in-hand, Tamarindo 360 has found the ideal balance, providing everything one could possibly need while also being environmentally conscious by employing intelligent led lighting, solar panels, cross ventilation, inverter air conditioning units, and recycling bins. The opulent common facilities feature an infinity pool, lounge areas, a fitness facility, a BBQ, a bar, a yoga deck, a dog park, and a coworking area. A site where one can hear waves, feel the breeze, and observe spectacular sunsets concurrently. On top of a little hill in Tamarindo, this bit of heaven can be found. The construction is anticipated to commence in January 2023 and complete in June 2024. Tamarindo 360 is an outstanding investment not only because of its pricing and location.
