Jaboncillos, Escazu, San Jose

Through its blend of rural charm and modern convenience, Jaboncillos has positioned itself as one of Escazú's most coveted neighborhoods. With a home there, you can easily enjoy all the wide array of cosmopolitan amenities and delights of Escazú's commercial and financial district, while going back to your calm, hillside home. This property provides precisely that kind of lifestyle with its expansive, 2700m2 area. A triple corner lot that showcases the tropical ambiance through the best in contemporary design, this home is one of the masterworks of acclaimed architect Bruno Stagno. Natural wood, cathedral ceilings, and a palpable and refreshing airiness all come together to highlight the property's sense of immersion. With 766m2 of construction, the first level offers a living space that includes formal and casual areas and features its own fireplace, a dining room, a "Great Room" with a stylish open-concept kitchen, and a delightful terrace leading to the tropical garden. There are three guest bedrooms with three bathrooms, two of which are en-suite. The master bedroom rounds off the floor with its large bathroom with a walk-in closet and Jacuzzi tub.
